

# Welcome to 4X NFT

[GET CONNECTED](#)

# Welcome Message

"4X NFT is an entirely decentralized platform. Users can easily buy NFTs and list them for sale (NFT-Non-Fungible Token).

Moreover, users can earn quick by recurring royalties automatically with every secondary sale through smart contracts, 4X NFT eliminates brokering middleman structure and it ensures fair and transparent revenue for creators, users, and communities alike.

"Every action occurs from listing to selling and royalty distribution is totally governed by smart contracts, 4X NFT give the commitment to ensure the transparency, security, and fairness for all users."

# Mission

We commit to facilitate a hassle-free environment to our people in the crypto world via creating a truly decentralized digital economy where creators and collectors interact directly, free from intermediaries and centralized control.

# Vision

Build a fully autonomous NFT marketplace governed entirely by smart contracts, ensuring perpetual royalties for creator's and end-users. End-users retain full ownership of their assets and every transaction is transparent and secure.

In unity,we find growth

# About Us

4X NFT Marketplace empowers the future of finance through intelligent digital assets. Built on the opBNB network with a customized smart contract, our platform ensures secure, automated, and transparent NFT transactions. All activities are permanently recorded on the blockchain, giving users full control and ownership of their assets—without third-party intermediaries.

## About 4X NFT

4X NFT is a fully decentralized marketplace on the opBNB blockchain, enabling creators to mint NFTs and earn automatic royalties on every resale. Users retain full ownership with no intermediaries and can access crypto opportunities easily through simple, mobile-friendly wallet subscriptions.

## About Security

4X NFT Marketplace delivers secure, seamless asset and data exchange through a trusted protocol across a decentralized network where your ownership and security come first.

# Why 4X NFT Stands Apart

In unity, we find growth

- 1. 100% Decentralized** - No central authority controls the platform. All the contracts are governed by smart contracts on opBNB Chain
- 2. Zero Withdrawal/Fees** - P2P transactions with no hidden fees. Profit stays with creators and end-users.
- 3. Perpetual Royalties** - Earn 1% appreciation on every resale automatically and income flows through smart contracts.
- 4. Open Source & Verifiable** - Every transaction is verifiable on opBNB chain. With the system of transparency and security

# Auto Liquidity Grid

Through advanced smart contracts, the Auto Liquidity Grid autonomously manages and balances the platform's liquidity, ensuring uninterrupted market movement even during low trading periods.

By continuously monitoring trade volume and activating reserve liquidity when activity drops, the system maintains seamless buy/sell execution across the network.

# How the Community Stabilizes the Platform

- 1. Supports Liquidity Flow** - A portion of every trade (3%) goes into the community pool, maintaining constant liquidity across the ecosystem.
- 2. Promotes Price Stability** - By supporting trades during low demand, the system prevents price drops and ensures consistent NFT value appreciation.
- 3. Encourages Continuous Growth** - The community fund recycles liquidity back into the platform, ensuring ongoing activity and sustainable market expansion.
- 4. Decentralized Control** - There's no admin or middleman – all community actions are governed by smart contracts, ensuring fairness and transparency.
- 5. Ensures Equal Opportunity** - Every user benefits equally from stable trading conditions and fair distribution of rewards community fund.

# Level Tree Structure

**Description :** The Level Tree is a smart-contract-driven reward system that distributes earnings across multiple referral levels, ensuring fair, transparent, and automated income flow as the network grows organically.

## 1. Direct Level :

Rewards are earned instantly when you directly refer a new participant into the system, forming the foundation of your earning structure.

## 2. Multi-Level Expansion

As your referrals invite others, additional levels open automatically, allowing you to earn from deeper network activity without manual management.

## 3. Automated Distribution

All level-based earnings are calculated and distributed by smart contracts, ensuring accurate payouts with no delays or human intervention.

## 4. Equal Opportunity Model

Every participant has the same level structure and earning potential, creating a balanced and transparent system for all users.

# Trading Mechanics

Destroy and regeneration  
At end of the cycle  
NFT reaches \$250,  
It regenerates into  
5 new NFTs.

NFTs will be hiked 5% on every purchase. When an NFT reaches \$250,  
It will be destroyed and regenerates 5 new NFTs worth \$50  
each and restarting the cycle.

NFT Purchase  
Purchasing  
NFT at market place.

Earnings – User receive  
60 % of appreciation  
profit to NFT holder  
20% Level commission  
to 15 Levels.  
20% to creator.

5% hike – Price of NFT  
increase 5% for sales

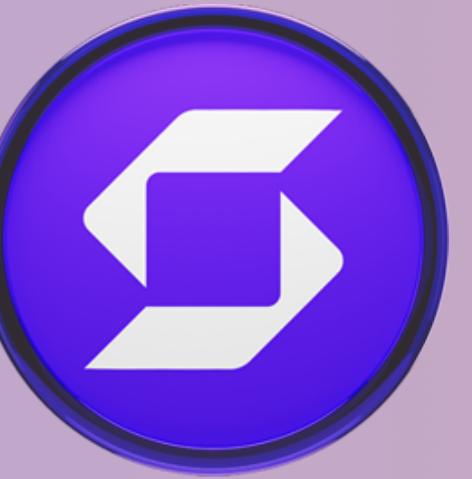

In unity,we find growth

4X NFT trading system will hold the last trade and release the remaining trades.
